COMPUTER SCIENCE AND ENGINEER

student with a strong passion for coding and problem-solving, constantly seeking new challenges to apply my technical skills and to contribute to innovative projects at growth driven companies , using my coding expertise to make a meaningful impact in the tech industry

EDUCATION

B.Tech in Computer Science and Engineer - CGPA - 8.0

Class 12th - Percentage - 76.0

Class 10th - Percentage - 80.0

WORK EXPERIENCE

UI/UX LEAD ROBGOYAN

Jun 2024- Present

- Managed project timelines and deliverables, ensuring projects were completed on time and aligned with organizational goals.

GEEKS FOR GEEKS | *Python, JavaScript, React, HTML & CSS*

Oct 2024- Dec 2024

- Developed a full-stack website called Time Capsulator during the GeeksforGeeks hackathon in Noida.
- The website enables users to store messages or data and retrieve them on specified future dates.
- Achieved seamless frontend-backend integration for an efficient user experience.

SIDE PROJECTS

- ROLL & RISK** | *HTML5, JavaScript, CSS3* |

- Two-player mode with options to hold scores or risk another roll.
- Turn switches on rolling a one, encouraging strategic play.

- HIDDEN DIGIT** | *HTML5, JavaScript, CSS3* |

- An interactive number-guessing game.
- Players guess a randomly generated number, receiving immediate feedback such as "Too High" or "Too Low" after each attempt, guiding them closer to the correct answer.

TECHNICAL SKILLS

- Languages** : C++, JavaScript, Python
- Technologies/Framework** : HTML5, CSS3, React, Node.js
- Developer Tools**: VScode , Jupitar Collab, Figma
- Soft Skills**: Communication,,Teamwork, Problem Solving, Critical Thinking, Time Management

EXTRACURRICULAR

Participant , Pixel Flow 2.0

Organized by IIIT Bangalore | November 2024

- Gained practical experience and exposure to industry-standard tools and workflows.
- Enhanced skills in UI/UX design and digital storytelling through collaborative challenges
- Engaged in hands-on exploration of cutting-edge creative design techniques.
